

ASTROS II RED

Made in Greece

Hand-Held Flare, SOLAS/MED/USCG

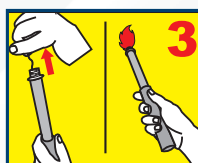

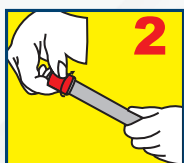

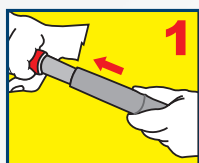

Code: 747881

- SOLAS/MED/USCG approved
- Covers carriage requirements for commercial vessels and recreational boats/crafts
- Safe for use near oil or petrol - covered water
- Easy and safe handling
- Bright red flame for at least 60 seconds at 15000 candela
- Compact design for easy stowage in liferafts
- Exceptional performance even in harsh weather conditions

APPLICATION

Emergency signal for position marking during rescue operations in day & night. SOLAS requires six pieces to be fitted in ships, lifeboats and liferafts. May be carried on vessel's bridge.

INSTRUCTIONS FOR USE

1. Hold the flare by the grey grip with one hand and the red end with the other hand. Pull the flare from the red end until it is fully extended before use.
2. Unscrew the red end cap to reveal the activation cord with a small ball on the end.
3. Keep the flare downwind, and away from your face and body, and from other individuals/objects and pull the red ball with the cord sharply so as to activate it.
